GLASS BLOCK WINDOWS

*Adding some originality to the original.*

As your leading block product supplier, Hy-Lite has always provided the products that take your projects to a higher level, while bringing your workload to a new low. And

now Hy-Lite is offering the elegance of real glass block with the ease of installation that

Hy-Lite is known for. The two-inch thick glass block is thinner and lighter than most and comes pre-fabricated in an easy-to-install aluminum or vinyl frame. The glass block is assembled with a vinyl spacer and white silicone caulking that emulates traditional mortar and is easy to clean. Hy-Lite glass block windows, combining Hy-Lite's innovative designs with the beauty and durability of glass block to create one perfect product.

PRODUCTS, INC.  
*Discover your imagination.®*

*To make it any easier, we'd have to install it for you.*

If you're after easy installation, look no further. For years, Hy-Lite® has provided stunning windows and accents with innovative design features for uncomplicated installation and increased durability. Our glass block windows are no different. Featuring an exclusive vinyl spacer, Hy-Lite glass block windows are stronger and more resilient than competitive products. The spacers also increase the distance between the glass block creating a wider caulk line, which achieves the look of traditional mortared block. And when it comes to energy efficiency, Hy-Lite glass block windows match the thermal performance of a typical double-insulated glass window.
