## PRESENTING A NARROW FRAME THAT'S NO SMALL FRY.

Max-Lite™ acrylic block windows feature an attractive low-profile frame that provides a wide open area allowing more light into the home. The welded vinyl frame construction is durable and energy efficient. Advanced sealant prevents leakage and is utilized on both sides of the window—making it perfect for shower applications. And the lightweight design makes the Max-Lite acrylic block window easy-to-install and doesn't require additional reinforcement.

- The attractive low-profile frame has more block and less frame.
- Vinyl frame construction is thermally efficient.
- Welded frame increases strength and durability, while helping prevent leakage.
- Utilizes a 2-1/4" frame depth that can be used as a 7/8" or 1-3/8" nail fin offset.
- Lightweight frame aids installation and doesn't need additional support.
- Unit is sealed on both sides to keep water in and out, making it perfect for shower applications.
- Offered in the same size as aluminum units to help eliminate the need for opening size modification.
- Backed by a comprehensive Ten-year Limited Warranty.

### OPTIONS

- Available in 6" or 8" block.
- White, tan or driftwood frame.
